RITIK

Data Analyst | SQL · Power BI · Advanced Excel

rk7703463@gmail.com | +91 96931 49491 | LinkedIn | Credly | Portfolio

PROFESSIONAL SUMMARY

Data Analyst with nearly 3 years of experience across analytics and software engineering, currently owning data operations for a national education programme covering 2,200+ schools, 400,000+ students and 10,000+ teachers. Builds SQL-driven Power BI and Excel dashboards that replace manual reporting cycles with real-time visibility on enrolment, attendance and staffing. Led a data-quality correction drive across 400,000+ student records. An engineering background in Kotlin and Firebase adds working knowledge of how source systems generate data — useful for debugging pipelines and partnering with development teams on data tooling.

TECHNICAL SKILLS

Analytics & Reporting: SQL (joins, aggregations, window functions) • Power BI (DAX, Power Query, data modelling) • Microsoft Excel (PivotTables, Power Query, advanced formulas) • KPI & dashboard design

Data Management: Data cleaning & validation • Data-quality auditing • Large-dataset handling • ETL / data preparation • Reporting automation

Databases & Cloud: Relational database concepts • Firebase Realtime Database • Google Cloud Platform fundamentals

Programming: Kotlin • Jetpack Compose • Object-oriented programming • Scripting for automation

PROFESSIONAL EXPERIENCE

Data Analyst (Vidya Samiksha Kendra) — Globus Informatics India Pvt. Ltd. *Sep 2026 – Present*

- Developed and enhanced education analytics dashboards and registry modules for School, Teacher, and Student data, supporting education data monitoring and administrative decision-making.
- Automated the Ek Ped Maa Ke Naam reporting workflow, streamlining report generation and improving reporting efficiency.
- Implemented advanced search and multi-select filters in the Teacher Registry to improve data exploration and accessibility.
- Contributed to the development of a Python-based desktop application using PySide6 (Qt), integrating dashboard interfaces and multi-page navigation.
- Supported data validation, reconciliation, and analysis across education datasets to improve data quality and reporting accuracy.

Data Analyst (E-Shikshakosh) — Globus Informatics India Pvt. Ltd. *Feb 2026 – Sep 2026*

- Own data operations for the E-Shikshakosh national education portal, covering **2,200+ schools, 400,000+ students and 10,000+ teachers**.
- Led a data-quality audit and correction initiative that improved accuracy across **400,000+ student records in 6 months**, reducing downstream reporting errors and rework for district teams.
- Design and maintain interactive **Power BI and Excel dashboards** on SQL-backed datasets, giving programme leadership real-time visibility into enrolment, attendance and staffing KPIs.
- Automated recurring reports that previously required ~[X hours/week] of manual compilation, freeing the team to focus on analysis rather than data assembly.
- Clean, validate and analyse large-scale datasets to support operational planning and resource-allocation decisions.

Kotlin Developer — Appsthiliaz Technologies Pvt. Ltd. *Feb 2025 – Jan 2026*

- Built **data analysis and automation scripts** that removed manual steps from internal workflows and improved turnaround on recurring reporting tasks.
- Developed Android features in Kotlin and Jetpack Compose backed by **Firebase Realtime Database** — working daily with data models, schema design and read/write performance.
- Applied object-oriented design, data structures and exception handling in production code, building the programming foundation now used for analytics scripting and automation.

Intern — Appsthiliaz Technologies Pvt. Ltd.(Remote) *Feb 2024 – Jan 2025*

- **Data Collection:** Gathers real-time field data and digital surveys.
- **Progress Tracking:** Monitors key performance indicators for local schemes.
- **Coordination:** Helps different local departments communicate and share data smoothly.
- **Reporting:** Prepares official progress reports and dashboards for higher authorities.

PROJECTS & SELECTED WORK

Managemax(School Management Software) — *Management Platform for schools*

- My own build software for my own startup and currently in building Phase.

E-Rojgaar Platform — *Employment platform | Concept to production in 7 months*

- Owned the build end to end, taking the platform from concept to **production in 7 months** across requirements, data-model design, development, testing and release.
- Integrated a real-time database so changes made on the platform are reflected instantly for users without manual refresh.
- Built a centralised admin panel giving administrators full control over every entity in the system, with records viewable, editable and manageable from one place.
- Designed the underlying data structures and read/write flows to keep records consistent and the app responsive as data grew.

Sales Analytics, Yumssie Foods — *Data-driven sales management*

- Analysed sales data to understand what drove deal value and where the pipeline was losing value.
- Designed a data-informed sales management strategy from the findings and implemented it with the sales team.
- Tracked deal metrics after rollout to measure impact, resulting in a **15% increase in average deal size**.

AutoStocks.ai — *Final-year B.Tech capstone project*

- [What it does: one line on the problem AutoStocks.ai solves.]
- [Data: source, time period and number of stocks or records used.]
- [Method: models / techniques / tools used, e.g. Python libraries.]
- [Result: accuracy, backtest outcome or other measurable result.]

KEY ACHIEVEMENTS

- Supporting data operations for a national education programme covering **2,200+ schools, 400,000+ students and 10,000+ teachers**.
- Led a data-quality correction drive across **400,000+ student records**, reducing downstream reporting errors and rework.
- Automated the Ek Ped Maa Ke Naam reporting workflow and recurring reports, replacing manual compilation with repeatable processes.
- Increased average deal size by **15%** at Yumssie Foods through a data-informed sales strategy.
- Delivered E-Rojgaar from concept to production in **7 months** with real-time data integration and a full admin panel.

EDUCATION

B.Tech, Computer Science *2021 – 2025*
State Government College (BEU)

CERTIFICATIONS

IBM Data Science
Google Cloud (Coursera): Core Infrastructure Fundamentals • Scaling and Automation
Salesforce Developer Intern: Certificate ID SISFVIPAD2024-86867

ADDITIONAL INFORMATION

Languages: English, Hindi, Maithili
Awards & Activities: Associate Lead, Google Developers Group (2024–25) • Google Arcade Facilitator (2×) • Badminton Divisional Winner
